

## Unsurpassed Simplicity and Reliability

Maintaining an industrial facility can be challenging. That is why Advance developed the SC901™, a simple machine allowing facility operators to focus on core tasks in a productive manner.

The SC901 removes common complexity routinely associated with floor cleaning equipment. The absence of sophisticated electronics and excessive features increases ease of use and uptime while lowering your overall cost to clean.

- Minimal electronics for increased reliability and lower total cost of ownership
- Built with hand select components from top manufacturers for long lasting durability
- Essential functions are uncomplicated for the utmost in reliability
- Powerful motors will provide years of trouble-free operation and powerful performance
- Simplified user interface eliminates operator confusion and makes operator training fast and easy
