Steam Cleaning Attachment Kit

Maximum Water Suction and Removal

Robust cast squeegee ensuring a thorough clean every time

Doubles as a steamer

The steam kit is a continuous refilling, portable steamer with a 2Lt boiler producing 155°C steam at 4.5 Bar pressure with chemical injection. The steam kit has four wheels and an ergonomic carry handle to use independently.

FEATURES - Batvac 50 Steam

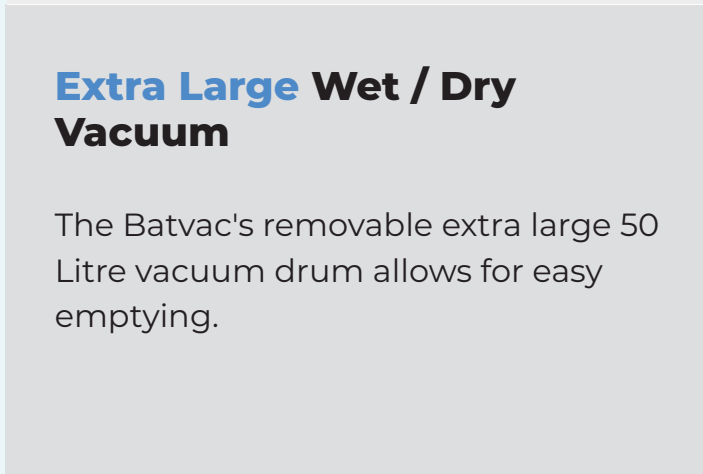

Extra Wide Vacuum Squeegee

The large 730mm squeegee makes short work of removing dirt and liquids from the largest areas.

Extra Large Wet / Dry Vacuum

The Batvac's removable extra large 50 Litre vacuum drum allows for easy emptying.

Fully Battery Powered

The Batvac is powered by rechargeable batteries allowing it to manoeuvre in restricted areas, without the need for cables.

On Board Charging

The Batvac has an on board charger, simply plug the entire unit into the mains to charge.
