

The first digital and fully modular 3Kw industrial vacuum

Model S3 is equipped with 3 bypass motors. It is easy to use thanks to the control panel supplying real time data about the vacuum efficiency, it is easy to use but reliable.

S3 is equipped with a control panel supplying real-time information about vacuum efficiency. It is available with 50 or 100L containers, in stainless steel, with gravity unload system (plastic bag or Longopac), L-M-H certified or with absolute filter for the collection of toxic or fine dust, with nomex filter (ideal in case of collecting of hot substances), with electric filter shaker so many versions for many different needs.

- 3 bypass motors
- electric control panel
- electric or manual filter shaker version
- gravity unload system with plastic bag or Longopac (continuous bag)
- compact vacuum easy to move in the production area
- L or M class filter
- HEPA H14 absolute filter version
- container release system
- container with castors and handle accessory box, cable/pipe holder
