

Mobile Water Heater for Cold Pressure Washers

Features include: A double turn coil made from steel tubing, treated with high temperature paints; New high efficiency, long life, weld-free boiler manufactured completely in stainless steel; and an electric control panel with on-off switch and thermostat. The cover and trolley are made from painted sheet metal and the Firebox 350 has great safety devices such as a check valve, safety valve, and flow meter to check for the absence of water. This unit has popular applications in agriculture, industrial manufacturing and also construction. *Colour may vary. Our mobile water heater is able to heat to 140°C. Ideal to turn your 5000 psi cold water pressure cleaner into a hot water machine.

- Use with a cold water high pressure cleaner up to 5000psi.
- Heats water up to 140 degrees celcius for thorough hygenic cleaning in automotive, agriculture, heavy transport and other industrial applications
- Low water cutoff switch, check valve and relief valve for safe usage
- Electric control panel with ignition switch and thermostat
- Thermostat control for temperature adjustment
- Longlife, stainless steel, weld free boiler
- Solid rubber tyres with swivel front wheel One year commercial warranty

● Standard equipment

Model	240V HOT WATER HEATER 350BAR
Ref. no.	00FIREBOX 350PA

Technical specifications

Pump pressure (bar/psi)	350
Voltage/frequency (V/Hz)	240 / 50
Max. temperature (°C)	140
Dimensions, L x W x H (mm)	770 x 720 x 900
Weight (kg)	114
Water flow (l/min.)	21

● Standard equipment, ○ Supplementary accessories, □ Mountable equipment
