About Duplex

Duplex Cleaning Machines Pty Ltd was established in Melbourne in 1990 when Ken McDonald, the Duplex CEO, jumped at the opportunity to exclusively distribute the innovative Italian Duplex floor scrubber in Australia and New Zealand.

From this small humble beginning, Duplex has gone from strength to strength, and now runs a national operation with distributors in all states, major cities and regional areas, with over 70 models of Italian made steam machines.

Duplex Cleaning Machines' key brand's include Duplex, Tecnovap, and Wine Barrel Cleaning.

Jetsteam Force

What is Jetsteam Force?

The Jetsteam Force is the most advanced industrial steam generator of its kind.

It combines the design and technology of over 25 years of commercial steam generator research and development.

It features a powerful 14L water and 14L detergent tank, and 7,3L boiler.

Jetsteam Force

Never run out of water

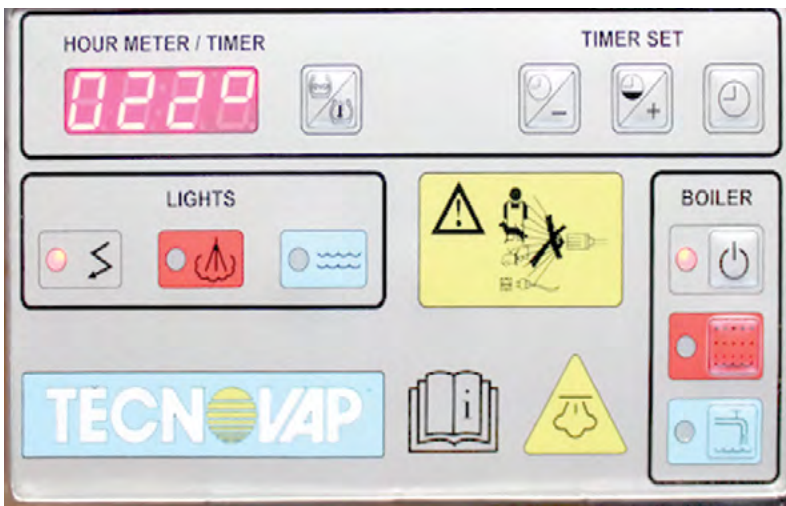

Our easy “connect and go” feature allows for a hose to be plugged directly into the machine providing a 24/7, continuous water supply. No cleaning downtime, no stopping to fill up your machine.

A mind of its own

The advanced digital control panel features a unique timer, allowing for your machine to automatically “wake up” and turn on, and operate by itself.

The easy to use control panel also features digital temperature read out, steam pressure and water connection indicator.

Total Control

The only machine to have both water and detergent injection features. Control it all through a flick of the switch.

Jetsteam Force

Blast Away

It's powerful 14 L water tank provides a hot water blast that rinses and flushes away debris, dirt and grime.

30 Per Cent More Heart

At the heart of every great machine is the boiler. This huge 7,3L boiler engine is 30 per cent bigger than any other machine of its kind.

Large Range of Tools

Tecnovap® steam accessories and kits are the most versatile cleaning tools available. Kits include the July kit.

JETSTEAM FORCE

Overview

- Steam Generator including trolley
- 7,3L Boiler + 14L Water + 14L Detergent
- Stainless Steel Chassis
- Direct water “connect and go”
- Hot H2O and Detergent Injection
- Cleaning Applications include general steam cleaning for food and beverage factory, graffiti removal, gum removal.

The July kit is our steam tools and accessories kit.

Technical Specifications

OVERVIEW TECHNICAL DATA		
Boiler Body		Stainless steel AISI 304
Boiler Volume	L	7,3 L
Water Tank	L	14 L
Detergent Tank	L	14 L
Operating Pressure	bar	10 Bar
Steam Production	g/min - Kg/h	97 g/min - 5,9 Kg/h
Steam Temperature	°C	+190
Detergent Temperature	°C	90 - 145
Power supply	V-Hz	400V - 50/60 Hz
Maximum Output	kW	3,75 - 7,35 - 10,95 - 14,55
Boiler Output	kW	3,6 - 7,2 - 10,8 - 14,4
Power cord	m	8
Weight	kg	60 Kg
