

JETSTEAM
MAXI
INOX

One machine to clean & disinfect everything

Introducing the most efficient, portable, European-made steam cleaner on the market. Clean, sanitise and deodorise all surfaces with high temperature steam. Blast away dirt, grime and grease.

“Superheated” Dry Steam Vapour

Not your average steamer.

Steam vapour is produced at a high temperature of +180 degrees Celsius (356 degrees Fahrenheit) providing a “deep clean”.

Made from Stainless Steel

Don't let its compact and lightweight size fool you. Made from stainless steel, the Jetsteam Maxi Inox is a robust machine. Strong and hardy, yet still a manoeuvrable and transportable powerful steam generator.

Total Control

At the click of a switch, the steam pressure hand control allows you to choose between minimum, medium and maximum steam pressure.

Self Cleaning Powerhouse

At the heart of every great machine is the boiler. Jetsteam Maxi Inox automatically shakes off and breaks up dirt to self clean.

What can the Jetsteam Maxi Inox do

Jetsteam Maxi Inox is the perfect steam cleaning accomplice for tile and grout restoration, mattress and upholstery cleaning, kitchen cleaning and general steam cleaning needs. Producing only 5% moisture content, its steam eliminates the risk of mould and mildew, and dries surfaces such as mattresses, chairs and upholstery within minutes.
