## About Duplex

Duplex Cleaning Machines Pty Ltd was established in Melbourne in 1990 when Ken McDonald, the Duplex CEO, jumped at the opportunity to exclusively distribute the innovative Italian Duplex floor scrubber in Australia and New Zealand.

From this small humble beginning, Duplex has gone from strength to strength, and now runs a national operation with distributors in all states, major cities and regional areas, with over 70 models of Italian made steam machines.

Duplex Cleaning Machines' key brand's include Duplex, Tecnovap, and Wine Barrel Cleaning.

## The Making of Jetsteam Maxi

The Jetsteam Maxi was developed and manufactured by Italian based brand, Tecnovap.

With over 26 years of experience in steam cleaning machine manufacturing, research and develop, Tecnovap are known as the “pioneers of steam technology”.

Duplex Cleaning Machines is an exclusive distributor of the Tecnovap product range in Australia and New Zealand, and provides back-up and support through its local suppliers.

*“Physical size is no longer an indication of power”*

Don't let the size fool you.

## What is the Jetsteam Maxi?

This compact and versatile unit produces a powerful 64 grams of steam per minute. This provides 20% more steam volume than traditional steam machines.

It is the most popular machine for contract cleaners and domestic use.

## “Superheated” Dry Steam Vapour

Not your average steamer.

Steam is produced at a high temperature of +180 degrees Celcius providing a “deep clean”. All surfaces, including upholstery, furniture and more are left dry within minutes due to its 5% water content.

## Debris Blaster

Hot H2O injection flushes away debris and build up.

## Total Control

At the flick of a switch, the hand control allows you to choose between steam pressure flows and water.

It features an impressive 8 Bar steam pressure.

## Industrial Strength Tools

A tool for every job. Our robust and durable accessories allow you to complete hundreds of cleaning tasks. No grout, surface or crevice will go untouched.

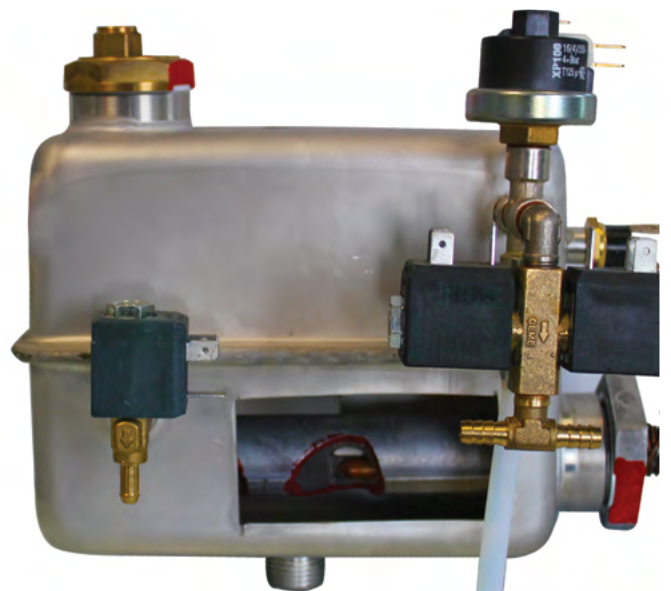

## 24/7 Continuous Steam

The large water tank means your machine reservoir is almost never empty. Due to having a separate boiler and water tank, simply re-fill your machine as you clean.

No stopping. No downtime.

## Self Cleaning Powerhouse

At the heart of every great machine is the boiler. It automatically shake off and break up dirt to self clean.
